NOURISHING ANTI-AGING ACTION

Brought together in a single formula for the very first time, ingredients taken from the hive put their powers to work for l'Elixir des Glaciers. Combined with liposomed DNA in a complex known as ESSENCE OF BEES, this product line unites the moisturizing and restorative properties of honey, the purifying potency of propolis and the renowned regenerative power of royal jelly.

Mixed with l'Elixir des Glaciers' own Rosa Moschata, these ingredients apply their anti-aging effectiveness in honor of our lifelong allies, bees.
